Federal Programs Lift Latinos Out of Poverty: Spotlight on Florida

Latino* represent one in six Americans and are poised to shape the nation’s future as one of the fastest-growing segments of the population. In Florida today, the Hispanic population stands at approximately five million, accounting for about one out of every four people in the state.\(^2\)

The Hispanic community’s size, work ethic, and resilience have contributed to the state’s economic resurgence following the Great Recession.\(^3\) Nevertheless, a considerable portion of Latinos continue to lag behind, struggling to put food on their tables and a roof over their heads. In 2015, about 26% of Latinos in Florida were living below the supplemental poverty threshold,\(^4\) compared to 19% of Floridians overall.\(^4\)

For more than 50 years, anti-poverty programs have helped ensure that working families are lifted out of poverty when times are tough or their wages are too low for them to make ends meet. These programs are collectively known as the “social safety net” and are at risk. The current budget being considered by the House of Representatives undermines these programs by imposing unprecedented cuts to fund tax breaks for both corporations and the extremely wealthy on the backs of the most vulnerable members of our communities.\(^5\) Proposed cuts to these programs would have a significant effect on the millions of Latinos who struggle financially, including the estimated 1.4 million Hispanics in Florida who live below the supplemental poverty threshold.\(^6\) Using data from the U.S. Census Supplemental Poverty Measure, this fact sheet provides evidence of the strong anti-poverty effect of selected supports in Florida, including the number or share of Florida Latinos participating and lifted out of poverty.

---

* The terms “Hispanic” and “Latino” are used interchangeably by the U.S. Census Bureau and throughout this document to refer to persons of Mexican, Puerto Rican, Cuban, Central and South American, Dominican, Spanish, and other Hispanic descent; they may be of any race.

† In this analysis, the poverty rate and number of people in poverty is based on the U.S. Census Bureau’s Supplemental Poverty Measure (SPM), which extends the official poverty measure by taking into consideration many of the government programs (i.e., tax credits and noncash transfers) designed to assist low-income individuals that are not included in the current official poverty measure. While the Census SPM provides a more complete view of the anti-poverty effect of government transfers than the official measure, the SPM still understates these effects because households in Census surveys tend to underreport their income from government programs. For more information about underreporting in the SPM, see Arloc Sherman and Danilo Trisi, “Safety Net More Effective Against Poverty Than Previously Thought,” Center on Budget and Policy Priorities, May 6, 2015.
Federal Refundable Tax Credits

The Earned Income Tax Credit (EITC) and Child Tax Credit (CTC) are federal tax credits for low- and moderate-income workers. The EITC encourages and rewards work—a worker’s EITC grows with each additional dollar of earnings until their income qualifies for the maximum value of the credit. The CTC helps working families cover the cost of raising children.

Earned Income Tax Credit

- In tax year 2015, approximately two million tax filers in Florida received $5.2 billion worth of tax credits through the EITC, and the latest Census data show that 32% of EITC beneficiaries were Latino.\(^7\)
- EITC lifted approximately 218,000 Florida Latinos out of poverty in 2015, including an estimated 107,000 Latino children.\(^8\)

Child Tax Credit

- In tax year 2014, approximately 1.4 million tax filers in Florida received $1.8 billion worth of tax credits through the refundable portion of the CTC, and the latest Census data show that 37% of CTC beneficiaries were Latino.\(^9\)
- CTC lifted an estimated 63,000 Florida Latinos out of poverty in 2015, including approximately 31,000 Latino children.\(^10\)

Federal Anti-Poverty Programs

Every American family needs an adequate diet, decent home, and stable living environment. Federal programs that provide nutrition assistance, create, and preserve affordable housing, and help cover utilities are critical pillars of our nation’s social safety net.

Supplemental Nutrition Assistance Program (SNAP)

- In February 2017, approximately 1.7 million Florida households received food assistance through SNAP, and the latest Census data show that 35% of SNAP households were Latino.\(^11\)
- SNAP lifted approximately 102,000 Florida Latinos out of poverty in 2015, including an estimated 42,000 Latino children.\(^12\)

Supplemental Security Income (SSI)

- As of December 2016, there were approximately 575,000 Floridians receiving SSI benefits, and the latest Census data show that 28% of SSI households were Latino.\(^13\)
- SSI benefits lifted approximately 65,000 Florida Latinos out of poverty in 2015, including an estimated 15,000 Latino children.\(^14\)

Rental Assistance

- Of the approximately 186,000 Florida households receiving federal rental assistance in 2016, approximately 53,000 (28%) were Latino households.\(^15\)
- Rental assistance lifted approximately 64,000 Florida Latinos out of poverty in 2015, including an estimated 14,000 Latino children.\(^16\)

Temporary Assistance for Needy Families (TANF)

- Of the approximately 85,000 Floridians receiving TANF in FY 2015, 19% were Latino.\(^17\)

Low Income Home Energy Assistance Program (LIHEAP)

- Approximately 118,000 Florida households received federal help to pay their energy bills in fiscal year 2016.\(^18\)
