COVID-19 IMPACT ON LATINOS AND VIEWS ON THE HEROES ACT
COVID-19 impact on Latinos and views on the HEROES Act

National Latino Survey Implemented by:

Henry R. Muñoz, III
Co-Founder Somos

Senator Catherine Cortez-Masto

Rep. Joaquin Castro
Chairman, Congressional Hispanic Caucus

Janet Murguia
President & CEO, UnidosUS

Matt A. Barreto & Gary M. Segura
Co-Founders of Latino Decisions
About the Survey

- N=1,829 nationally representative sample of Latino adults
  - N=1,251 registered voters
  - State oversamples in AZ, CA, CO, FL, IL, TX, NJ/NY
- Partnered with MOVEON
- Field dates: May 10-16, 2020
- English or Spanish according to respondent preference
- Blended mode: online and live phone interviews
- Content: COVID19 impact, views on HEROES Act

Source: SOMOS UNIDOSUS National Latino Survey May 10-16, 2020 (N=1,829) MoE +/- 2.3%
Key Findings

- One out of four Latinos know someone who has been infected with COVID-19. Among those, one-third know someone who died due to COVID-19.

- 60% of Latino households have lost jobs or had pay cuts. Economic stress is compounded by barriers to stimulus funds, small business loans, and unemployment insurance.

- Responding to the COVID-19 crisis is the top issue Latinos want Congress to address, and they have clear views on what Congress should do:
  - 80%+ support funding for coronavirus testing and treatment for everyone, including undocumented.
  - 80%+ want a relief bill to include all immigrant families, and loans for small-business owners.

Latino Focus on COVID-19 Crisis

(How closely have you been following the news about coronavirus, also called COVID-19)

- In total, **91%** are following COVID-19 news, with **59%** following “very closely”.

- Attention to the coronavirus pandemic is all consuming and risks crowding out enthusiasm/interest in the 2020 election, still months away.

VIEWS ON HEROES ACT
Experience with CARES Act

- Millions of Latino families and businesses did not receive any support from the CARES Act, including:
  - 48% of households earning less than $25,000 a year
  - 31% of US born, and 45% of Latino immigrants
  - 66% of Latinos believe the initial stimulus was not enough, that most people actually need more to get through the next couple of months.

HEALTH AND ECONOMIC IMPACT
One in four Latinos knows someone, or have themselves, become ill due to coronavirus. In the New York area, that share is much higher at 44%, and in Illinois it is 30%.

Prevalence of COVID-19 Among Latinos

(Have you or a family member or friend become ill due to the coronavirus? Percent “yes” illustrated)

- U.S.: 25%
- NY / NJ: 44%
- Illinois: 30%
- Colorado: 24%
- Texas: 22%
- Florida: 21%
- California: 18%
- Arizona: 16%

Hospitalizations and Deaths Due to COVID-19
Familiar to Many Latinos

Among those who know someone who contracted coronavirus:
* 58% themselves, or someone they know, was hospitalized due to COVID-19.
* 32% know someone who died as a result of the virus.
* Among all Latinos nationwide, 8% know someone who has died of COVID-19.

Source: SOMOS UNIDOSUS National Latino Survey May 10-16, 2020 (N=1,829) MoE +/- 2.3%
More than one in four Latinos (27%) knows someone, or have themselves, wanted to get tested, but were unable to do so. Unmet demand is highest in the hardest-hit areas: New York / New Jersey (39%) and Illinois (29%).

Huge Personal Financial Losses and Stress
(Which of these circumstances are true for you/household due to coronavirus outbreak? Percent “yes” illustrated)

More than one-third, (36%) of Latino households have experienced a job loss.

60% of Latino households have experienced either a job loss or a cut in pay. 22% had BOTH job losses and pay cuts.

24% have lost their employer-provided health insurance.

Hard Hits to Latino Small-Business Owners and Self-employed

- More than 25% of Latino entrepreneurs shutdown lost significant revenue or shut down their business altogether.

- Among them, 49% had trouble getting a loan under the initial stimulus bill.

- Among those working and schooling at home (45% home schooled children)
  - 84% received no support to cover costs for equipment, wifi or data plans needed to complete work and school assignments.

TRUST IN A TIME OF CRISIS
Latinos Believe Trump’s Poor Response Had Devastating Consequences

(Which statement do you agree with most?)

President Trump ignored the early warning signs of coronavirus, and because of his delays and incomplete response, thousands of Americans are now sick and dying.

There is nothing President Trump can do to prevent or stop an outbreak like the coronavirus from spreading in the United States, he should not be blamed for this crisis.

Source: SOMOS UNIDOSUS National Latino Survey May 10-16, 2020 (N=1,829) MoE +/- 2.3%
Trusted: Local Medical Community, Not Trusted: Trump

(On a scale of 0 to 10, how much do you trust each of the following to provide accurate information and helpful advice related to the coronavirus outbreak? Mean values illustrated)

Latinos are most trusting of medical experts and their friends and family. Trump is the least trusted source of information and advice on coronavirus. On a scale of 0 to 10, mean trust in Trump is 3.3. Note: 39% rated him zero.

Source: SOMOS UNIDOSUS National Latino Survey May 10-16, 2020 (N=1,829) MoE +/- 2.3%
Trust Local Medical Experts and Governors, Not Trump

(On a scale of 0 to 10, how much do you trust each of the following to provide accurate information and helpful advice related to the coronavirus outbreak? Mean values illustrated)

Despite Health and Economic Woes, Support for Stay-at-Home Orders

(Source: SOMOS UNIDOSUS National Latino Survey May 10-16, 2020 (N=1,829) MoE +/- 2.3%)

(Which statement do you agree with most?)

- We are in this together and need to do what we can to prevent spread of coronavirus. Even if it means a few more weeks of staying at home, missing work and/or school – that is a small price to pay in order to save millions from illness or death.

- America needs to get back to work now. This has gone on too long; people are losing jobs and the economy is falling apart. It is a sad fact that some people will get sick and die when we all go back to our normal lives, but we need to get back to work so the economy recovers and people keep their jobs.
