

As the data below show, Hispanics* are quickly becoming a population with a national presence. The most dramatic Latino population growth has occurred in "nontraditional" states, and Hispanics are now the largest minority in the country. Given that almost half of Hispanics are under 25 years old, they will constitute a large segment of the future U.S. population, workforce, and electorate.

Illinois Compared to the Nation

- ▼ Illinois is the state with the fifth-largest Latino population.¹
- ▼ Between 1990 and 2000, the growth rate of the Latino population in Illinois ranked 32nd in the country.¹
- ▼ Of all states, Illinois has the tenth-largest share of Latinos when compared to the total state population.¹

	Population (2003) ²		Hispanic Percent of Population ²	Growth Rate (1990-2000) ¹		Median Age (2003) ²
